Support for you and your family and friends. The Dementia Guide Service will provide information, emotional and practical support, from the point of diagnosis and throughout your dementia journey.

The Dementia Guide Service can offer:

- Face to face visits
- Information, advice and support to people diagnosed with dementia and their carers
- Explore appropriate support and wellbeing opportunities
- Identify and access any support you may need, for example, attending a Memory Wellbeing service, café or group, other healthcare appointments and any other activities that are important to you
- Work with other agencies to coordinate any care and support you or your carer may need, including social care and assistive technologies
- Begin careful and considerate discussions on planning for your future and help to complete Advanced Care Plans
- Carers assessments

Exclusions

This service is not able to

- Directly meet any personal care needs
- Undertake moving and handling
- Directly provide transport to community activities or healthcare appointments
